ILLUSTRATION & DESIGN

Visual Science Communications Specialist at U.S. Geological Survey
Washington, DC. September 2023-Present

Work with CASC researchers to create scientific diagrams, figures, and illustrations for publications, grant proposals, and presentations.

Freelance Scientific Illustrator

Washington, DC. March 2020- Present

Collaborate with researchers, non-profits, and scientific companies to design original scientific illustrations, diagrams, and infographics for web and print use.

Notable clients and projects include:

- Cover illustration for AAAS's September 2023 edition of *Scientific Advances*
- Scientific diagrams and figures for National Science Foundation Grantee American University Project: *Multiscale RECIPES (Resilient, Equitable, and Circular Innovations with Partnership and Education Synergies) for Sustainable Food Systems*
- Design scientific figures and diagrams for proposals and grants for researchers at American University, University of South Florida, Morgan University, and Montana State University
- Phasmid nymph illustrations highlighting morphology and anatomy for entomologist Royce Cumming of the American Museum of Natural History

Creative Director at Glassroth Creative Strategies

Washington, DC. August 2019-Present

Lead and managed design projects for clients including web and print reports, logo and branding, website design, print, and social media advertising all within accessibility standards.

Notable clients and projects include:

- Infographics, web and print reports, print conference materials, logo and branding, and website design for Funders Concerned About AIDS
- Policy briefs, reports, and conference materials such as presentations, posters, and fliers for Global Health Advocacy Incubator
- Website design (in collaboration with Sefer Design Co.) for institutions such as Grafton Integrated Health Network, Equal Opportunity Schools, and Global Health Council
